

NEW PROMOTION CAMPAIGN FOR PROTEC DIVE CENTERS

We invite all ProTec Dive Center for an advertising campaign – it is free, without extra charge!

We are looking for interesting, short article on event or events, but also interesting about diving. This must be either your own creations or reports (without copyright, so Shareware) third parties that have been found somewhere ".

Important – it has to be entertaining for divers and up to date. Especially 1-2 or 3 fine images will be good (web version, not a very high resolution required).

Of course, center may be introduced, but at least one interesting highlight of this should come to the forefront. A pure center introduction by the usual method is not needed here. If reports just about diving, the author is mentioned, a reference to the dive center or the trainer (advertising effect) is ok.

Pure offers, including special offers or announcement of dive courses are not welcome; they belong to the homepage of the center. Of course, no offensive or otherwise legally questionable content are allowed. Product launches and reviews, provided that no sales offers are also ok.

If "found" reports of third parties, the "Finder" is mentioned. All such nominations, with a link to the dive center are possible. Of course, any ProTec center which is linked / shown on our ProTec "Net" have to show clearly it is a ProTec base. We expect at least our logo and link(s) back to ProTec Web.

The reports are published only limited time and should therefore be frequently replaced. The aim is to offer the Internet public interesting content, and so attract visitors.

The publication is made on the ProTec internet sites, any additional Internet media ProTec HQ like Facebook (www.facebook.com/protectdive , etc.).

Should there be a comprehensive report, even with multiple images, so this will only be touched (possibly with a picture) and with " more ... " will be a link to the local side (the Center) where the report is published in full.

For short reports, we expect an HTML email, or a link. We check the contents and line chronologically by arrival.

We are also happy to take an interesting (or amusing) image with a brief accompanying text – send the picture in low resolution with comments to us or post it directly in our facebook page!

Since this is an INTERNATIONAL / Internet portals action, please send any text in ENGLISH only, but in addition, same content in the local language may follow.

Videos are possible at a later date, currently in testing

This service is free for all active registered ProTec Dive Center.

Just send an email to us: contact@protectdive.com
