

## **APPRENTICE DIVER**

( Basic Scuba Theory & Pool)

### **Intention of this course**

The intention of this course is to offer a certification of a scuba diver course that is partly concluded. This applies primarily to scuba diving course where theory and pool practice (pool) are completed successfully, however, the training in free waters is still pending or just partly completed (usually is done later in the vacation).

This course can be offered to scuba diver 1 as well as to scuba diver 2. The student becomes, in addition to the member identity card and the certification, a check list for the outstanding lake/see uw- practice (according to the level of SD1 or SD2). A locally instructor would be asked to make these trainings with the students according to the list and to sign it in case these trainings are terminated successfully. Provided that the ProTec instructor is not concerned here, the student sends the list to a ProTec HQ or deliver it to the next ProTec instructor/Diving center and receive the certification as on Lists.

Instruction by ProTec 1\* instructor.

### **Training environment**

Any open water, safe for scuba diving.

### **Prerequisites**

According to each goal - level same as scuba diver 1\*

### **Accomplishment**

Same as for Scuba Diver 1\*, however, without OW practice.

The checklist for this course is the same as for Scuba Diver 1\* (according to level). The first part (Pool Class) has to be finished completely, while the second part (OW Class) has to be completed later.

There is a checklist for every ProTec course, where all important skills and exercises are listed. The ProTec Instructor has to use this list absolute. When finished, the duly signed original has to be handed to the student, while a copy have to remain over 5 years at the instructors records for quality assurance.

<b>Theoretical lessons</b>
----------------------------

Same as for Scuba Diver 1\*

<b>Practical training</b>
---------------------------

**Surfaces:** Same as for Scuba Diver 1\*
