

# Concept Dive Centre Registration

Update 2010-12-01

So far was the sentence: "No ProTec ProTec Dive Instructor without associated Protec dive Centre. This is to prevent kind of guest house training and ensure that each Instructor has a certain logistics of a diving school. It was demanded a fixed assignment (modification possible) of each individual instructor to a registered ProTec Dive Center.

This system was now made more flexible without losing its professionalism. Basically, it does not matter on what dive school a ProTec Instructor trains his students, as long as it is a registered ProTec Dive Center. It does not matter whether an instructor travels around the world from one ProTec base to another, or whether he stays at one ProTec base. The required assignment Instructor <> ProTec base now falls. What remains, however, is the data entry of a valid ProTec Centre ID and a valid certification code in each ProTec Diver/Instr. certification/registration. Only registered ProTec Centre received such a number and could buy certification code sets. Instructors will get the codes therefore from a ProTec Centre. This ensures the ProTec courses take place only in or in Support of a ProTec Centre. Without a valid ProTec Center ID as a training base or a valid code any registration request will not be processed.

ProTec and the responsible Office now support its Center for promotion. Internet listing at various points and the release of promotional items. Each dive center has the ability to publish right promotional items on the Internet platforms of HQ and Office for a limited period, etc. (send a link to you news articles side to HQ by email).

Of course it is important and a condition of advertising support that our Center show in their media appearance with text and logo representation also that they are a ProTec Center. It would be very disadvantageous if ProTec Center (promoted by ProTec) represents themselves not as a ProTec Center. In School and facility it is sufficient if Protec (with logo) is represented on an equal footing with competitor organizations. With a Premier Center Emphasis ProTec is required over competitors. Please download the Protec logo from web/ProTec member's area. As we have on the other hand an IT & web developing department, we could help you in any case of web design. Feel free to ask us.

Each center can sign up with his ID in the Members Area and thus gives the owner access even if he is not ProTec Instructor.

A diving center annual fee (there are no special re-registration fee) will be decided in 2010 as follows:

ProTec School	90,00 €
ProTec Facility	120,00 €
ProTec Premier Centre	150,00 €

Center which does not pay this fee on time will be set passive and are excluded from all services, their ID is invalid for Certifications.
